

# Zombie Math

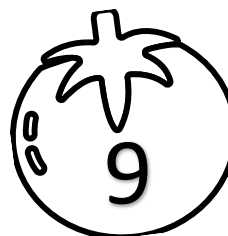

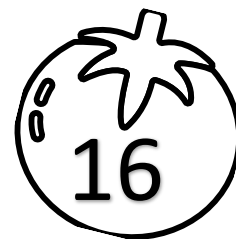

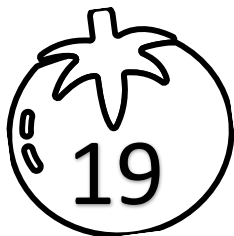

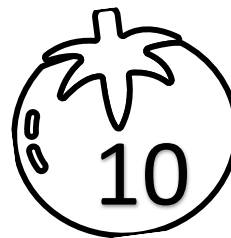

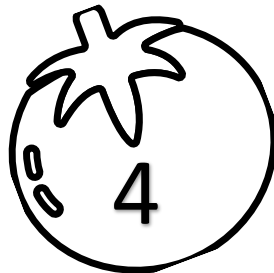

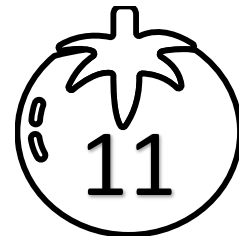

Draw more vegetables to make 10

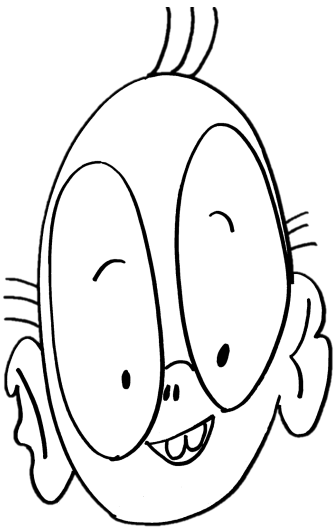

# Zombie Math

Color the even numbered tomatoes red  
and the odd numbered tomatoes yellow.

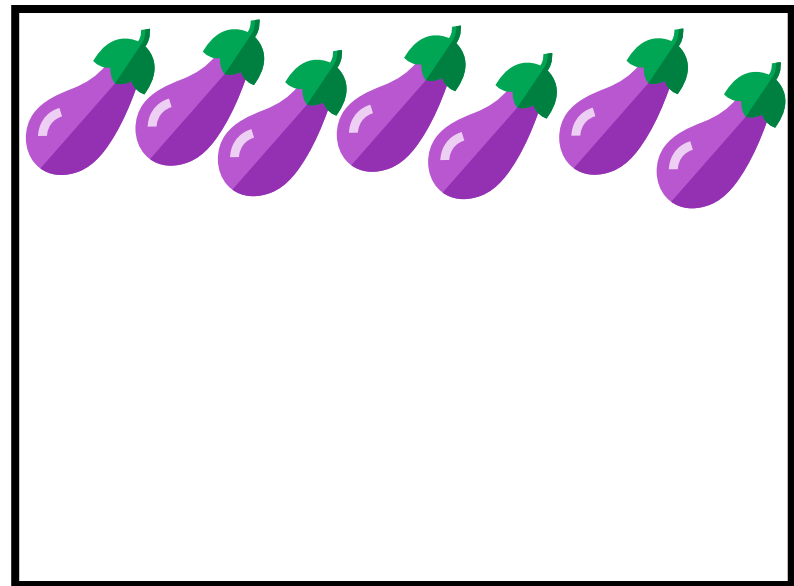

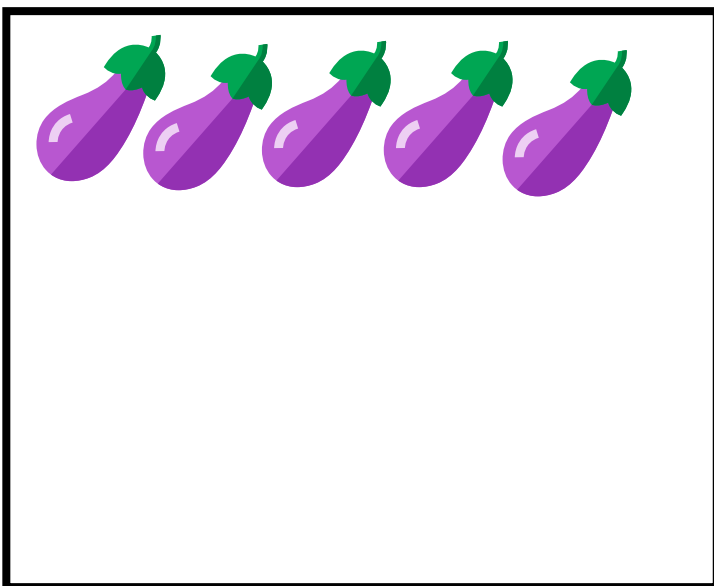

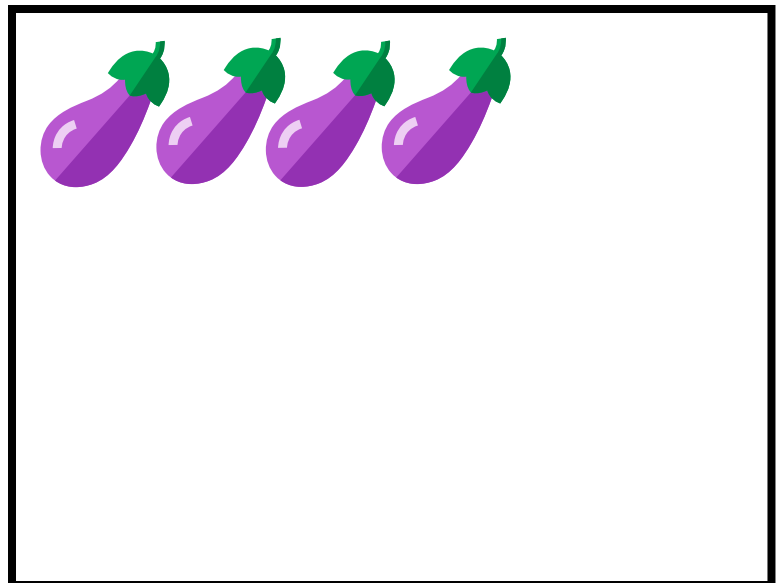

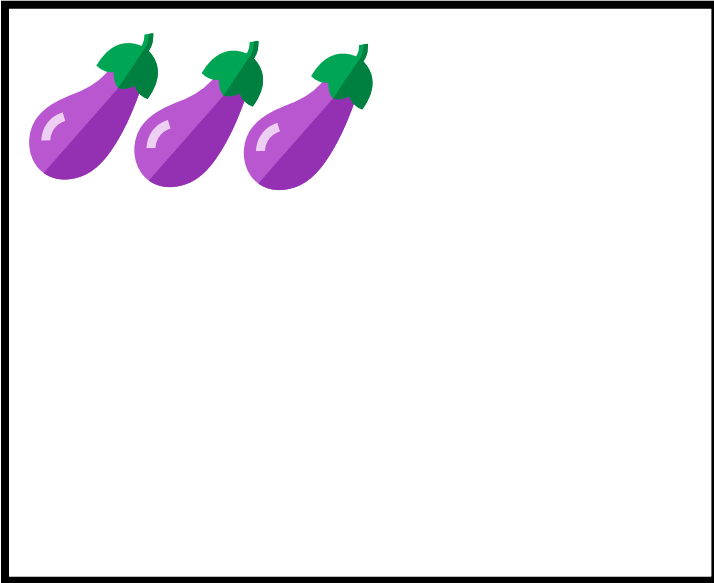

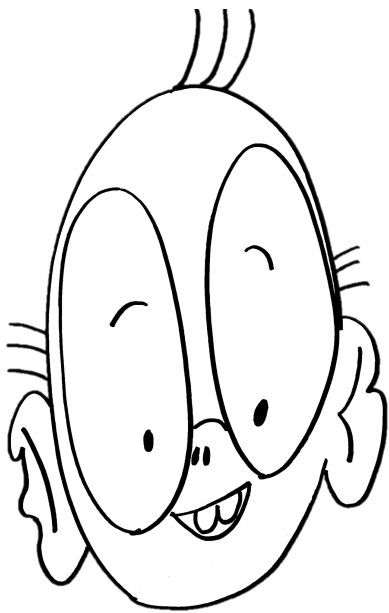

# Zombie Math

Count the number of eggplants and write that number.

Mo needs ONE MORE potatoes and ONE LESS carrots.

Draw out your work.

# Zombie Math

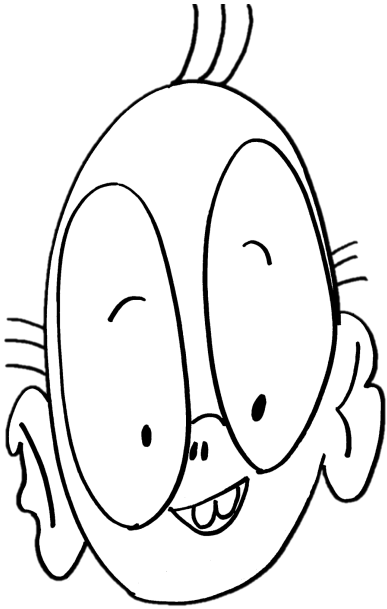

Answer the problems using the space provided to draw out your work.

If Mo picked 31 tomatoes, and 6 were rotten, how many of his tomatoes were still good to cook with?

If Mo planted 24 pumpkin seeds, and a squirrel dug up 9 seeds, how many of his pumpkin seeds were left to grow?

If Mo had a basket of 35 onions and 11 accidentally fell out, how many onions were still left in his basket?

Mo picked 40 peppers. Twenty-five were sweet and the rest were spicy. How many spicy peppers did he end up picking?

# Zombie Math

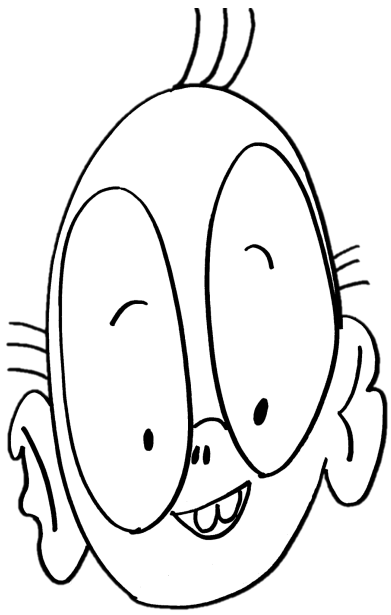

Answer the problems using the space provided to draw out your work.

If Mo had 8 tomatoes, and he cut each tomato in half for his Gazpacho, how many pieces of tomatoes did he put in his soup?

If Mo had 4 cucumbers, and he sliced each cucumber into 5 pieces for his salad, how many slices of cucumber did he garnish on his salad?

If Mo chops 6 onions into 4 pieces for his veggie pizza, how many pieces of diced onions are on his pizza?

If Mo cuts 9 zucchini into 3 equal pieces to fry, how many zucchini fries will he make?
